

## At Cleveland Vicon, we're really proud of our seals!

No, they're not the swimming, barking, bounce a ball on your nose type. Our seals are like your seals. They show that we are certified professionals in our field. You'll find our seals on our door and hardware schedules to show that our salespeople are certified as Architectural Hardware Consultants and Certified Door Consultants by the Door and Hardware Institute. Our seals indicate that the professional who prepared your work has passed a rigorous two day test and maintains his or her credentials with continuing professional education. Cleveland Vicon is the only door and hardware distributor in Northeast Ohio whose sales staff can make that claim.

Your AIA seal shows that you're a professional dedicated to being the best in your business. Why not work with a company of people who feel the same about their jobs?
